Given the high price of long-haul travel, it is no surprise that the overseas leisure travel market draws heavily from the higher income population. Nearly one-quarter of U.S. overseas travelers have an annual household income of $125,000 or greater. Affluent travelers are an important part of Hawai’i’s target market, especially when considering the cost of a Hawaiian Island vacation.

On average, affluent travelers tend to take more vacations each year and visit more expensive destinations than the general travel population. Hawai’i is in fact the top preferred domestic destination for the affluent segment, with over 40 percent of Hawai’i’s U.S. visitors falling into a high-income demographic, this month’s Spotlight On provides a deeper look at the affluent traveler profile, including preferred travel planning sources and top in-destination activities.

As the overall cost of travel grows, Hawai’i’s hotel room rates are continuing on an upward trajectory. The island whose room rates have remained relatively stable year-over-year is benefiting from increased occupancy, while those with significantly higher rates are seeing slower growth or flat occupancy. Meanwhile, Hawai’i can expect to see a boost in air service in the months ahead from the U.S. and Canada. Air seats are likely to continue on a record-setting path through the remainder of summer, with the bulk of additional seats bound for the Neighbor Islands.
Affluent Americans are expected to be the key driver of growth for the U.S. travel industry in the year ahead. Although comparatively small when considering the overall population, affluent travelers make up an important segment of the market in terms of total number of trips taken in a year and spending habits.

Nearly one in four (24%) of U.S. overseas travelers have an annual household income of $125,000 or higher. In a survey of active travelers with an annual household income of $125,000 or higher, 20 percent of affluent travelers plan to take more vacations in 2015. On average, travelers who earned between $125,000 and $249,999 took 4.7 leisure trips in 2013, while those who earned more than $250,000 took an average of 6.2 leisure trips. Both groups expect to take more trips in 2015: +9 percent more for individuals with an annual household income in excess of $250,000 and +4 percent more for those with incomes between $125,000 and $249,999.

Hawai‘i is the top domestic destination for affluent travelers, with 63 percent reporting they are interested in visiting the Hawaiian Neighbor Islands in the next two years and 55 percent interested in visiting Honolulu. Other preferred domestic destinations include national parks (61%), New York City (52%), and San Francisco (51%). Among international locales, Italy (41%), England (40%), and France (38%) are most the popular.

The Affluent Traveler Profile

Air Seat Outlook

Air Service to Continue on Record Setting Path

Nearly 2.18 million air seats are destined for Hawai‘i from the U.S. and Canada in July through September 2015, a +5.5 percent increase over the previous year. Air service growth is largely fueled by an additional 84,000 seats coming from the U.S. West market, including a +19.8 percent boost from San Francisco and +16.4 percent from Seattle. Growth will also be sustained by increased service from the U.S. East market, which is expected to supply an additional 16,288 seats. Major U.S. East airports such as Atlanta (+20.4%) and Chicago (+28.3%) will help drive this increase. Similarly, air seats from Canada are expected to grow +30 percent in the three month period, bringing in an additional 13,345 seats.

Neighbor Islands can expect to see the majority of the additional air service, receiving more than three-quarters of the added air seats from the North American market. Kahului is slated to receive 50 percent of the additional seats bound for Hawaii, while Kona will receive 23 percent, Līhu‘e 2.1 percent, and Hilo 0.5 percent.
