### **HAWAI'I'S PRE-TRAVEL TESTING PROGRAM TO LAUNCH OCTOBER 15, 2020**

- On September 16, Governor David Ige announced that the State's pre-travel testing program will start on October 15, 2020. Travelers who get a negative FDA-authorized Nucleic Acid Amplification Test (NAAT) from a certified Clinical Laboratory Improvement Amendment (CLIA) lab no more than 72 hours prior to departing their destination will be exempt from the State's mandatory 14-day quarantine.
  - If results are not available by time of arrival, quarantine will be necessary until test results are received.
  - All travelers of all ages will be subject to the pre-testing requirement.
  - Travelers will also have their temperatures checked upon arrival and must fill out a [Mandatory Travel and Health Form](#).
  - Individuals will be responsible for the cost of the testing.
  - No commercial testing will be provided at Hawai'i airports.
- The State's 14-day mandatory self-quarantine for all travelers arriving into Hawai'i has also in effect through September 30, 2020.
  - Rental Car Operations: Additionally, operations that rent vehicles may not rent to any person who is subject to a 14-day traveler quarantine order unless an exemption is granted.
  - Host Responsibilities for 14-Day Self-Quarantine: All hosts of any guest(s) subject to the mandatory 14-day self-quarantine are responsible for ensuring that their guest(s) abides by the self-quarantine rules.
    - Any host violates this rule if the host intentionally, knowingly, or recklessly fails to notify law enforcement immediately when a guest or guests subject to the self-quarantine fails to enter or remain within the confines of their designated quarantine location.
  - Short Term Rentals: Please be sure to check the latest guidelines for short term rentals, transient vacation rentals and homestay operations in place, by county ([City and County of Honolulu](#), [Maui County](#), [Kaua'i County](#), [Hawai'i County](#)).
  - Force and Effect of Law: Any person who intentionally or knowingly violates the Travel Quarantine Rules shall be guilty of a misdemeanor, and upon conviction, the person shall be fined not more than \$5,000, or imprisoned not more than one year, or both. Section IV of this Proclamation shall remain in place until 11:59 pm on July 31, 2020.

## **NEW SAFE TRAVELS PROGRAM**

- The State of Hawai'i's new online [Safe Travels](#) program is mandatory for all travelers. This program, which collects the required health and travel information, is critical to protecting the health of residents and visitors alike. Click [here](#) for FAQs and instructions.
- Travelers are encouraged to enter their information and trip details well in advance of their flight. Once their health information is entered 24 hours before departure, travelers receive a QR code via email. The QR code on their mobile device or printed on paper gets scanned by the airport screener upon arrival.
- New features and data elements will be added in future phases, as the Safe Travels process and State travel requirements evolve. Travelers without smart phones or computers can ask a friend or relative for assistance or receive assistance at the arrival airport. Travelers without email addresses will need to create one on an email service to comply with the conditions of quarantine. Click [here](#) for the press release.
- The state Department of Transportation (HDOT) will continue thermal temperature screening and facial imaging technology at the airport for all arriving out-of-state passengers.
- Travelers may be prohibited from boarding a flight if they have an elevated temperature above 100.4 degrees, they refuse to complete the mandatory form, or they are on the 14-day quarantine list prohibiting them from flying.
- Out-of-state travelers are also required to fill out a [Mandatory Travel and Health Form](#).

## **PARTIAL INTERISLAND TRAVEL QUARANTINE REINSTATED ON AUGUST 11**

- On August 6, Governor David Ige [announced he will be reinstating the mandatory 14-day interisland quarantine](#) due to rising cases of COVID-19 in Hawai'i. This only applies to travelers arriving on Kaua'i, Maui, Lāna'i, Moloka'i, and Hawai'i Island. The period of self-quarantine will begin immediately upon arrival and last 14 days or the duration of the person's stay on the island, whichever is shorter. This will be in effect through September 30.
- The state Department of Transportation (HDOT) will require thermal screening at the airport for everyone traveling interisland.
- Travelers may be prohibited from boarding a flight if they have an elevated temperature above 100.4 degrees, they refuse to complete the mandatory form, or they are on the 14-day quarantine list prohibiting them from flying.
- All travelers are encouraged to allow themselves more time than normal to get through the screening process and TSA at the airport.

## **JAPAN CONSIDERS HAWAI'I IN LIST OF GLOBAL DESTINATIONS TO RESUME SAFE INTERNATIONAL TRAVEL**

- On July 27, Governor David Ige and House Speaker Scott Saiki expressed their gratitude to Japan Prime Minister Shinzo Abe and Foreign Minister Toshimitsu Motegi for [Hawai'i being mentioned along with an exclusive list of 12 countries and regions](#) that are being considered to resume safe international travel with Japan. Prime Minister Abe and Foreign Minister Motegi announced that international travel between Japan and the 12 destinations is being considered in the near future with Europe and Hawai'i to follow in the next step.
- Hawai'i is the only destination in the United States mentioned for consideration for Japan's resumption of international travel. Other destinations that Japan is considering discussions with include Brunei, Cambodia, China, Hong Kong, Macao, Laos, Malaysia, Mongolia, Myanmar, the Republic of Korea (ROK), Singapore and Taiwan.
- Governor Ige noted that details for the Japan-Hawai'i safe travel program are still being resolved and no timetable has been set for when it would take effect. The governor stressed that public health will be the overriding factor in determining how the program is carried out to support the state's economic recovery and the tens of thousands of residents who depend on the travel industry for their livelihoods.

## **GOVERNOR IGE MANDATES EVERYONE WEAR A FACE MASK/COVERING**

- On April 17, Governor David Ige issued a mandate that everyone be required to wear a face mask or covering while in essential businesses – or while waiting to get inside. The requirement was included in an emergency supplemental proclamation and takes effect immediately. The face mask requirement applies to both employees and customers in essential businesses. The order also:
  - Requires businesses to monitor and enforce social distancing rules of at least 6 feet between customers and employees.
  - Requires limits to the number of customers in a facility to only the number allowed when following social distancing guidelines.

## **HVCB ASKS MEDIA NOT TO ENCOURAGE TRAVEL TO HAWAI'I DURING PANDEMIC**

- On April 6, Hawai'i Visitors and Convention Bureau (HVCB) issued a temporary request to media to suspend publishing any stories about Hawai'i that might encourage people to travel to the islands during this time. Click [here](#) for more information.

## **CURRENT HAWAI'I SITUATION**

- On May 18, Governor David Ige issued an [Eighth Emergency Supplemental Proclamation](#), which deescalates the state's COVID-19 alert level to yellow – “Act with Care” (Minor Disruption) – which enables more businesses to reopen across Hawai'i in June.
- As of March 17, the Hawai'i Convention Center will be closed to the public until further notice.

## **COUNTY OF KAUA'I UPDATES – [WWW.KAUAI.GOV](http://WWW.KAUAI.GOV)**

- On September 15, Mayor Derek Kawakami announced a new emergency rule which establishes an Enhanced Movement Quarantine, or “Resort Bubble,” program. Gov. David Ige signed Mayor’s [Emergency Rule 16](#) authorizing the Enhanced Movement Quarantine program which would permit visitors to leave their hotel rooms to utilize the resort’s property during their mandatory quarantine period. This Resort Bubble concept is a voluntary program for both the resort to participate and the visitor to stay there.
  - In order to participate, resorts must establish security and enforcement policies to protect the safety of both guests and employees of the resort. Security and enforcement are the responsibility of the resort, and all rules, such as mask wearing and physical distancing, must be followed.
  - Visitors who wish to stay at an Enhanced Movement Quarantine resort must agree to wear an electronic monitoring bracelet that is tracked by the resort. Within established limits, they can utilize the entire resort property, including on-site pools and restaurants. If the monitoring unit is tampered with or the visitor leaves the resort property, hotel security will notify the Kaua’i Police Department for enforcement.
  - Any person violating any rule of the governor or mayor, if convicted, could face a fine of up to \$5,000 or serve up to a year in jail, or both.
  - Several Kaua’i hotels have expressed interest in participating in the program, but no launch date has yet been determined as stakeholder discussions are ongoing. Updates on the Enhanced Movement Quarantine, or Resort Bubble, program will be announced as more information becomes available.
  - To view Governor Ige’s proclamations, the mayor’s emergency rules, and for local updates on Kaua’i’s coronavirus response, visit the Kaua’i Emergency Management Agency website, [www.kauai.gov/COVID-19](http://www.kauai.gov/COVID-19).
- On August 14, Mayor Kawakami announced that effective immediately, outdoor gatherings will be limited to 25 people and keep indoor gatherings to a maximum of 10 people under the recently amended [Emergency Rule 13](#). This rule applies to casual, social gatherings and does not apply to allowable businesses, operations, or activities, pursuant to the Governor’s Emergency Proclamation.

## **CITY AND COUNTY OF HONOLULU UPDATES – [WWW.HONOLULU.GOV](http://WWW.HONOLULU.GOV)**

- On September 8, Mayor Kirk Caldwell extended O’ahu’s “Stay at Home/Work from Home” Order ([Emergency Order No. 2020-26](#)) an additional two weeks through September 23.
  - This Order requires all individuals anywhere in the City to shelter in place — that is, stay at home and work from home — except for certain essential activities and work to provide essential business and government services or perform essential public infrastructure construction, including housing.
  - Under the amended Emergency Order, City parks, botanical gardens, trails, beaches, and community gardens will be re-opened beginning Thursday, September 10 for the limited use of walking, running, biking, sitting, fishing, and other lawful activity, but only by oneself. No group use or group activities are allowed. Basketball and tennis courts, swimming pools, and playgrounds shall remain closed.

- State parks/trails and beaches are reopened for the above limited use as announced by the State Department of Land and Natural Resources consistent with this Amended Second Stay at Home / Work from Home Order.
- Regular park closure hours remain in effect and social gatherings of any type and any number of people are still prohibited, both indoors and outdoors. All other State or City restrictions related to COVID-19 must be followed, including, but not limited to, any applicable quarantine restrictions.
- On August 18, Mayor Caldwell announced new mandates for O‘ahu that go into effect on August 19 at midnight:
  - Gatherings with more than five (5) people are no longer allowed, indoors and outdoors.
  - Employers are being urged to allow people to work at home if possible. If not, they’re being asked to limit the number of people at the workplace by staggering schedules.
  - Face coverings are required at all shopping malls, including the open-air ones.
  - Restaurants cannot have groups larger than five at a single table. Outdoor attractions, museums and movie theaters also cannot have groups larger than five.
  - Common areas for eating at offices must be closed, except for heating up food.
- Effective through August 31, all individuals on O‘ahu are mandated to stay at home and work from home except for certain essential activities and businesses. Click [here](#) to read "Ho‘oulu i Honolulu 5.0," or "Restore Honolulu 5.0."
  - All businesses with a facility in the City, except essential businesses, are required to cease all activities within such facilities.
  - All individuals within the City shall wear face coverings while outdoors and outdoors in public spaces when maintaining a physical distance of six (6) feet from persons who are not members of the same household or residence is not feasible.
  - All travel, including, but not limited to, travel on foot, bicycle, scooter, motorcycle, automobile, or public transit, except Essential Travel and Essential Activities (as defined in Section II), is prohibited. People must use public transit only for purposes of performing Essential Activities; or to travel to and from Essential Businesses, or Designated Businesses and Operations; or maintain Essential Governmental Functions. People riding on public transit must comply with Social Distancing Requirements, as applicable and to the greatest extent feasible.
- [Short-term rentals](#) (lodgings that provide guest accommodations for less than 30 days, other than hotels and motels) may not operate during the term of the order (as may be extended), and they are not legally recognized places for visitors to lodge or self-quarantine at this time.

## **COUNTY OF MAUI UPDATES – [WWW.MAUICOUNTY.GOV](http://WWW.MAUICOUNTY.GOV)**

- As of July 31, Maui’s [Public Health Emergency Rules](#) limit indoor and outdoor social gatherings to no more than 10 people. Face coverings are required and physical distancing of at least 6 feet between separate groups must be maintained.
  - Businesses and places of worship will still be allowed to function under existing County and State rules. Businesses such as restaurants, bars and beauty salons must continue to follow health and safety guidelines outlined in the emergency rules.

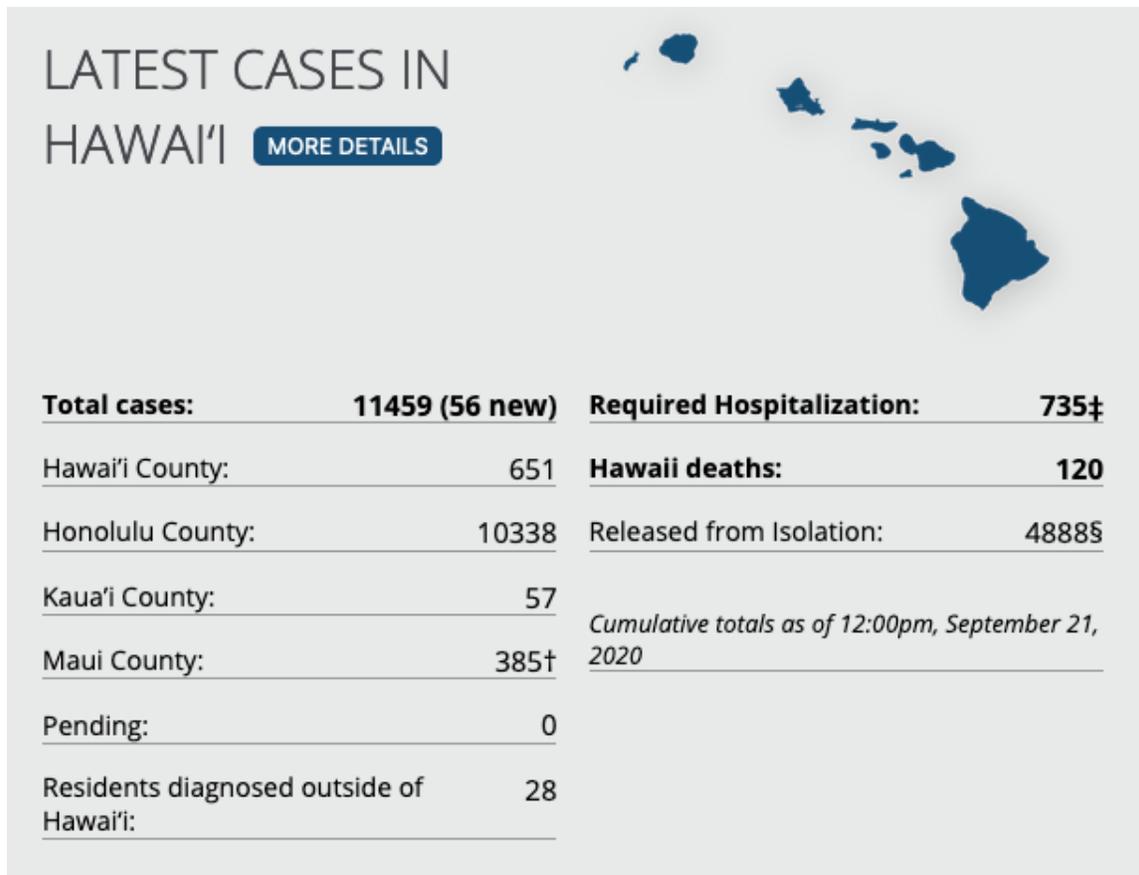

- Beginning June 16, transient vacation rentals may reopen to individuals who are not subject to the 14-day quarantine. Transient vacation rental operators should take note that:
  - Condominium units that are zoned hotel or that are on the short-term occupancy list, B&Bs and STRHs, could potentially rent to interisland travelers, residents and guests not subject to the 14-day quarantine, such as out-of-state guests who've completed their quarantine at a hotel.
  - Illegal TVRs continue to be disallowed and will be held responsible for violating County law and Public Health Emergency Rules, in addition to zoning violations.

**COUNTY OF HAWAII UPDATES – [WWW.HAWAIICOUNTY.GOV](http://WWW.HAWAIICOUNTY.GOV)**

- All state coastal and beach park areas on Hawai'i Island will be closed from September 4 through September 18. Transiting through the closed parks to access allowable ocean activities is permitted. This effort is aimed at preventing large unauthorized gatherings and suppressing the increasing spread of COVID-19, particularly during the upcoming Labor Day holiday weekend. At all affected parks, gates will remain locked and parking lots will be closed. Affected parks are:
  - Lapakahi State Historical Park
  - Hāpuna Beach State Recreation Area
  - Kekaha Kai State Park
  - Kīholo State Park Reserve
  - Kealakekua Bay State Historical Park (Land areas closed, bay waters open for boating and ocean recreation under COVID restrictions)
  - MacKenzie State Recreation Area
- Mayor Harry Kim's [Emergency Rule 11](#) establishes that indoor and outdoor gatherings of groups of up to 10 persons are permitted provided that physical distancing and safe practices can be maintained unless a greater amount of people are permitted under this rule.
  - Face Coverings Required
    - All persons within the County shall wear non-medical grade face coverings, over their nose and mouth, while in public settings. Face coverings are not required in the following circumstances, unless specifically indicated otherwise in this rule:
      - Persons five (5) years of age or younger;
      - Persons with health or medical conditions that prevents them from wearing a face covering;
      - Persons actively communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication;
      - Persons obtaining a service involving the nose or face for which temporary removal of the face covering is necessary to perform the service;
      - Persons for whom wearing a face covering would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines;
      - Persons actively engaged in work-related activities and able to maintain a physical distance of at least six (6) feet from others;
      - Persons actively engaged in exercise activity so long as physical distancing requirements are maintained;

- Persons who are engaged in outdoor activities when alone, with members of their household, or when able to maintain a distance of at least six (6) feet from others.
  - A business or organization may refuse to allow entry or service to a worker, customer, or patron that refuses to wear a face covering.
- Physical Distancing Requirements
- All persons shall maintain a minimum of six (6) feet of physical separation from all other persons to the fullest extent possible.
  - Businesses or operations shall designate lanes for patrons' entry and checkout with appropriate signage, tape, or other means to establish the minimum six (6) foot spacing for customers waiting in line.
  - Checkout operations shall be modified to provide the minimum physical distancing or to provide a shield or barrier separating the interactions between customers and checkout clerks.
  - Businesses and operations shall monitor and enforce, on their premises, the physical distancing requirements set forth in this rule.

## STATUS ON HAWAII'S COVID-19 CASES

- Isolation and quarantine help protect the public by preventing exposure to people who have or may have a contagious disease.
  - **Isolation** separates sick people with a contagious disease from people who are not sick.
  - **Quarantine** separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick.
- Those from the general public seeking information or answers to questions about COVID-19, can call 2-1-1.
  - Aloha United Way has extended its public call center hours to 7 a.m. to 10 p.m., 7 days a week. For more information or questions about COVID-19:
    - Call: 2-1-1 from any location in the state
    - Text: 877-275-6569
    - Email: [info211@auw.org](mailto:info211@auw.org)
    - Visit: [health.hawaii.gov/covid19](https://health.hawaii.gov/covid19) or [coronavirus.gov](https://coronavirus.gov)

## GUIDANCE ON USING CLOTH FACE COVERINGS

- CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), **especially** in areas of significant community-based transmission. Further information: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/cloth-face-cover.html>
- CDC also advises the use of simple cloth face coverings to slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others. Cloth face coverings fashioned from household items or made at home from common materials at low cost can be used as an additional, voluntary public health measure.

## ECONOMIC IMPACT

- Congress passed Coronavirus Aid, Relief, and Economic Security (CARES) Act on March 27, and President Trump signed into law the largest economic stimulus package in modern American history – a [\\$2 trillion measure](#) – designed to respond to the coronavirus pandemic. Under the law, the government will deliver direct payments and jobless benefits for individuals, money for states and a substantial bailout fund for businesses battered by the crisis. In addition to the larger relief measures, \$500 billion has been allocated to provide loans to businesses and industries such as airlines, hotels, restaurants, nonprofits and more.
- On August 13, [STR](#) and [Tourism Economics](#) revised its 2020 and 2021 U.S. hotel forecast projecting it will take 11 quarters for the number of room nights sold to rise to the corresponding levels of 2019, according to Jan Freitag, STR's senior vice president of lodging insights. She also noted it will take until 2023 for occupancy to reach the 20-year historical average. With lower occupancy levels, and the influence of discounting as hoteliers compete for market share, ADR could show a slower recovery timeline even with more normalization each quarter. STR improved its 2021 ADR projection from +5.2% to +5.6%. Despite this better growth rate next year, it does not see ADR recovering to pre-2020 levels in the next five years.
  - Occupancy: 2020 – 39.8%  
2021 – 52.0%
  - Average Daily Rate (ADR):  
2020 – US\$103.71  
2021 – US\$109.56
  - Revenue Per Available Room (RevPAR):  
2020 – US\$41.31  
2021 – US\$56.95
- STR reports that for the week of August 30 to September 5, U.S. occupancy was down -18.9% year-over-year to 49.4%. The average daily rate (ADR) was down -17.1% to \$100.97. RevPAR dropped 32.8% to \$49.87.

- On August 31, CBRE updated its lodging economic conditions. Key Findings:
  - CBRE Hotels Research is forecasting continued improvement in U.S. lodging performance through the remainder of the year and beyond. According to the Q2 2020 edition of *Hotel Horizons*<sup>®</sup>, U.S. hotel occupancy should average 39.8 percent, along with an average daily rate (ADR) of \$104.10 for 2020. The net result is an annual RevPAR level of \$41.46, which is 52.5 percent less than the \$87.22 RevPAR posted for 2019.
  - Recovery patterns vary by chain-scale. Occupied room nights for hotels in the upper-midscale segment are projected to return to 2019 levels in 2022, while luxury and upper-upscale demand will lag until 2024.
  - CBRE forecasts an economic cycle shallower than initially anticipated, followed by a longer recovery. In turn, this has extended our forecast of recovery in lodging demand to 2023 from 2022.
  
- On June 17, Oxford Economics and its subsidiary Tourism Economics and U.S. Travel Association issued an updated overview of COVID-19's economic impact.
  - Domestic and International Travel Industry Losses – Domestic travel spending is forecast to drop 40% (from \$972 billion in 2019 to \$583 billion in 2020) while international inbound spending is expected to free-fall to 75% (\$155 billion to \$39 billion).
  - GDP Losses – Travel industry losses will result in a cumulative GDP impact of \$651 billion in 2020. We project the US economy to enter a protracted recession based on the expected downturn in travel alone. The recession is likely to last at least two quarters with the lowest point in the second quarter of 2020.
  - Tax Losses – A decline of \$80 billion in taxes will be realized as a result of travel declines in 2020.
  - Employment Losses – The U.S. economy is projected to lose 8 million jobs by the end of April as a result of travel declines in 2020. The unemployment rate of 4.4% in March will rise substantially in the coming months. Travel-related employment losses alone will push the unemployment rate up to 8.4% by the end of April.
  
- On June 11, UHERO's Executive Director Carl Bonham presented "Reopening and Recovery: Hawai'i Challenges and Opportunities." The consequences of the shutdown span all industries, but hits hardest in industries most tied to the visitor and food service industries. As the State works to develop policies to help weather what promises to be an extended recession, it will be important to keep these differential impacts in mind.
 

<https://uhero.hawaii.edu/early-ui-data-reveals-differential-impacts-of-the-economic-shutdown/>

  - On May 8, UHERO's Executive Director Carl Bonham presented "Reopening and Recovery: Hawai'i Challenges and Opportunities." The video presentation can be seen here: <https://uhero.hawaii.edu/uheros-executive-director-carl-bonham-presents-re-opening-recovery-hawaii-challenges-and-opportunities/>
  - On May 5, UHERO released a statement on economic recovery scenarios for Hawai'i. Video can be seen here: <https://uhero.hawaii.edu/video-uhero-develops-economic-recovery-scenarios-for-hawaii/>

- On April 27, UHERO reported on COVID-19's uneven impact on businesses and workers. Results from a UHERO-Chamber of Commerce Hawai'i Survey Summary: <https://uhero.hawaii.edu/covid-19s-uneven-impact-on-businesses-and-workers-results-from-a-uhero-chamber-of-commerce-hawaii-survey/>
- March 30 Interim Forecast Update, the University of Hawai'i Economic Research Organization (UHERO) forecasts that the coronavirus will cause visitor spending in Hawai'i to fall by more than 40.8% this year.
- As of March 29, 2020, Hawai'i's passenger counts for the month of March have declined by 46% year-over-year.
- 80,000 new unemployment claims in March, with filing days remaining in the month. Job counts will fall precipitously in industries tied to tourism and local activities now banned by the stay-at-home order.
- Summary is available at: <https://uhero.hawaii.edu/interim-forecast-update-hawaiis-economy-is-shut-down-to-deal-with-covid-19/>
- Statewide initial unemployment claims increased by 588.4% this week with 7,504 total filings. This is compared to 1,090 filings during the same week in 2019. [http://files.hawaii.gov/dbedt/economic/data\\_reports/unemployment/initial\\_unemp\\_summary.pdf](http://files.hawaii.gov/dbedt/economic/data_reports/unemployment/initial_unemp_summary.pdf)

## **GLOBAL TRAVEL WARNINGS**

- The Hawai'i Tourism Authority and Hawai'i Visitors and Convention Bureau urges travelers to follow public health authorities' recommendations.
- On July 16, The Centers for Disease Control and Prevention (CDC) announced the extension of a No Sail Order for cruise ships through September 30, 2020. This order continues to suspend passenger operations on cruise ships with the capacity to carry at least 250 passengers in waters subject to U.S. jurisdiction.
- On June 10, the U.S. State Department updated its Passport Operations in Response to COVID-19. If you are thinking about applying for or renewing a U.S. passport now for international travel, please read the Department of State's [current international travel advisory](#).
  - On July 30, it was reported that the U.S. State Department will publish U.S. passport statistics every Thursday. People can track its weekly progress as staff at its agencies and centers safely work on applications.
  - There are six (6) passport agencies and centers in phase two, in addition to 10 agencies and centers in phase one of its reopening plan. Go to the [Passport Agency and Center](#) page for more information. <https://travel.state.gov/content/travel/en/passports/get-fast/passport-agencies.html>
  - Passport agencies and centers are only open to assist customers who need a passport in the next 72 hours (3 business days) for a [life or death emergency](#). For the health and safety of employees and customers, it is minimizing the amount of time employees and customers spend together in agencies and centers. <https://travel.state.gov/content/travel/en/traveladvisories/ea/passport-covid-19.html>

- On August 6, the U.S. State Department updated the Global Level 4 Health Advisory – The Department of State advises all U.S. citizens to read the country-specific [Travel Advisories](#) and [U.S. Embassy COVID pages](#) for updates on the impact of COVID-19 worldwide.
- The COVID-19 pandemic continues to affect countries differently. Challenges to any international travel at this time may include mandatory quarantines, travel restrictions, and closed borders. Foreign governments may implement restrictions with little notice, even in destinations that were previously low risk. If you choose to travel internationally, your trip may be severely disrupted, and it may be difficult to arrange travel back to the United States. <https://travel.state.gov/content/travel/en/traveladvisories/ea/covid-19-information.html>
- On March 31, the U.S. State Department updated the Global Level 4 Health Advisory – Do Not Travel that urges U.S. citizens to avoid all international travel due to COVID-19: The U.S. Department of State now advises U.S. citizens to avoid all international travel due to the global impact of COVID-19. In countries where commercial departure options remain available, U.S. citizens who live in the United States should arrange for immediate return to the United States, unless they are prepared to remain abroad for an indefinite period.

<https://travel.state.gov/content/travel/en/traveladvisories/ea/travel-advisory-alert-global-level-4-health-advisory-issue.html>

- On July 2, the Centers for Disease Control and Prevention (CDC) provides updated coronavirus travel related information on its website: [www.cdc.gov/coronavirus/2019-ncov/travelers/index.html](http://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html).
  - Warning – Level 3: The CDC recommends avoiding all nonessential travel to the following destinations, including [cruise ship travel](#). Most foreign nationals who have been in one of these countries during the previous 14 days will not be allowed to enter the United States:
    - Widespread ongoing transmission with restrictions on entry to the United States:
      - Brazil
      - China
      - Iran
      - Most European Countries
      - United Kingdom and Ireland
    - Widespread ongoing transmission without restrictions on entry to the United States. CDC recommends that travelers avoid all nonessential travel to all other destinations not listed above.
    - CDC Guidance for travelers returning from all Level 3 countries can be found at: <https://wwwnc.cdc.gov/travel/notices/warning/coronavirus-global>
  - Alert – Level 2: CDC recommends that older adults and people of any age with serious chronic medical conditions should consider postponing nonessential travel to most global destinations.
  - Watch – Level 1: Travel Health Notice: Limited community transmission
    - CDC recommends travelers practice usual health precautions recommended for their destination.

- CDC Guidance for travelers returning from international travel can be found at: <https://www.cdc.gov/coronavirus/2019-ncov/travelers/after-travel-precautions.html>
- On June 16, the U.S. and Canada extended its agreement temporarily restricting all non-essential travel across its land border until July 21. The original measure was implemented on March 21.
  - More information may be found at: <https://www.dhs.gov/news/2020/04/21/fact-sheet-dhs-measures-border-limit-further-spread-coronavirus>
- CDC – Coronavirus in the United States Considerations for Travelers – Travel increases your chances of getting and spreading COVID-19. We don't know if one type of travel is safer than others; however, airports, bus stations, train stations, and rest stops are all places travelers can be exposed to the virus in the air and on surfaces. These are also places where it can be hard to [social distance](#) (keep 6 feet apart from other people).

<https://www.cdc.gov/coronavirus/2019-ncov/travelers/travel-in-the-us.html>

## **EMPLOYER GUIDELINES**

- The Hawai'i State Department of Health and Centers for Disease Control and Prevention encourages businesses to follow its recommendations regarding the workplace and employees, including guidance on maintaining flexible sick leave policies, encouraging sick workers to stay home and implementing regular environmental cleaning protocols and specific health checks for work-related travel.

[https://health.hawaii.gov/docd/files/2020/02/2019-nCoV-Employer\\_guidance\\_HDOH.pdf](https://health.hawaii.gov/docd/files/2020/02/2019-nCoV-Employer_guidance_HDOH.pdf)

<https://www.cdc.gov/coronavirus/2019-ncov/community/guidance-business-response.html>

## **PREVENTION AND PREPARATION**

DOH recommends the following guidelines for protecting yourself and your family from COVID-19 and other respiratory diseases, in addition to preparing for what to do if coronavirus becomes widespread in our communities.

- Protect – Following everyday preventive actions can prevent or slow down the spread of respiratory illness in the community:
  - Stay home if you start to feel ill.
  - Wash your hands often.
    - Use soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
    - If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.
  - Avoid touching your eyes, nose, and mouth.
  - Avoid close contact with people who are sick.

- Cover your coughs and sneezes.
  - Use a tissue, then throw the tissue in the trash.
  - If you don't have a tissue, use your elbow.
- Clean and disinfect.
  - Clean frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Get the flu shot.
  - People with seasonal influenza will exhibit similar signs and symptoms as COVID-19 (fever and cough). If more people are protected against influenza, this will reduce confusion and the burden on our healthcare system.

## **IF YOU ARE SICK**

- Per DOH, if you become ill with a fever or cough, and have recently left an area having [widespread community transmission](#) of COVID-19 or have had prolonged close contact with a person confirmed to have COVID-19:
  - Stay home and avoid contact with others.
  - If you think you may need medical care, call ahead to the healthcare provider's office or an emergency room and let them know about your symptoms and travel or contact history.
  - If you need immediate medical care, call 911.
